05 OCTOBER 2026 • KSA

WELCOME

Design that gives a scene its identity.

Technobuild brings furniture and interior expertise to projects across Saudi Arabia. This collection brings together recognisable design pieces, colourful contract seating, modular storage and workplace furniture, organised to help production teams select by character, finish and practical role.

01

Find the right object

Browse by brand, then use the stock ID to shortlist the exact photographed piece. Colours and variants have separate records.

02

Check the real stock

Actual-stock images appear on every item card. USM order options use exact manufacturer colour images. Unverified stock matches retain the actual photographs.

03

Build the enquiry

Send the stock IDs, quantities, shoot dates, location and delivery requirements. Confirm availability, condition and final commercial terms before booking.

About the stock. The owner reports unused stored furniture. Some labels document older stock, including deliveries in 2001 and 2006. Storage marks, ageing and showroom exposure must be checked separately from use history. An old design date does not prove an old manufacturing date.

Commercial status. The figures in this guide are indicative proposals, not approved offers or verified sold-market values. Items requiring identification, configuration or valuation are shown as price on request. Two possible duplicate records are held outside the active selection.

Technobuild company & contact information

A collection of distinct personalities.

Eight brand sections, followed by a studio collection of pieces whose makers remain unconfirmed. Brand portraits are editorial summaries based on brand sources, not manufacturer endorsements.

08 / THE BRAND

Modular systems that adapt over time

USM’s modular furniture is built around a system of components that can be configured and reconfigured. Coloured panels, metal tubes and ball joints create storage and display arrangements that move between office, public and domestic settings.

TB-059

USM Haller Bar & Hospitality Console Orange

Fritz Haller & Paul Schärer (system)

A large-scale USM Haller configuration designed for hospitality, bar service and entertaining. The composition combines a long working counter with raised display shelves, open storage bays and elevated serving surfaces, creating a functional station for glassware, bottles, accessories and bar equipment.

TB-060

USM Haller Vinyl & Media Storage Orange

Fritz Haller & Paul Schärer (system)

A custom USM Haller configuration designed around vinyl storage and hi-fi equipment. Four open record-display compartments with polished chrome retaining rails keep LPs visible and accessible, while the integrated equipment bay accommodates an amplifier or audio components. A dedicated top surface provides space for a turntable, with a lockable lower cabinet for concealed storage.

USM Haller

Wardrobe with Integrated Dressing Table

DELIVERY

60–90 days

TECHNOBUILD ORDER LEAD TIME

THE CONFIGURATION

Five drop-down doors. Integrated dressing table with pull-out/sliding work surface. Open shelving and wardrobe compartments. One clothes rail for hanging garments. Integrated footrest beneath the dressing area. Adjustable levelling feet. Chrome-plated tubular frame with powder-coated steel panels.

THE SPECIFICATION

Nominal dimensions: W3000 × D500 × H2140 mm.
The supplier notes approximately +36 mm to the overall width and depth for the external frame, giving an approximate maximum footprint of W3036 × D536 mm

THE DESIGN

Designed by Fritz Haller & Paul Schärer Jr. The USM Haller furniture system began development in 1962, with its final ball-joint system completed and patented in 1965. Its construction combines chrome-plated balls and steel tubes with powder-coated sheet-steel panels. Created in Münsingen, Switzerland, USM Haller remains a modular system designed to be reconfigured and extended over time.

Custom design options are new orders, separate from the photographed USM stock. There are 14 Colour variants

MADE TO ORDER / 14 COLOURS

USM Haller

The Walk-In Wardrobe

DELIVERY

60–90 days

TECHNOBUILD ORDER LEAD TIME

THE CONFIGURATION

Corner wardrobe composition with multiple hanging sections, open shelves, closed storage compartments and lower shoe/storage bays. Chrome-plated tubular steel frame with powder-coated steel panels. The Golden Yellow mobile trolley shown in the image is a separate USM Haller component, configuration 99b, not part of the main wardrobe 99a.

THE SPECIFICATION

99a — USM Haller Wardrobe
W3273 × D2273 × H2040 mm
99b — USM Haller Trolley
W673 × D373 × H755 mm
These dimensions are taken directly from USM's official Look Book.

THE DESIGN

Fritz Haller & Paul Schärer Jr.
USM Haller was developed from 1962, with the final ball-joint system patented in 1965. The system is built from chrome-plated steel tubes, ball connectors and powder-coated sheet-steel panels, and is manufactured in Switzerland.

Custom design options are new orders, separate from the photographed USM stock. There are 14 Colour variants

01 / THE BRAND

vitra.

Modernist icons and contemporary seating

Design for everyday life. Vitra works with designers to make furniture that combines practical use, enduring form and a considered approach to materials. Its collection spans established modernist pieces and contemporary objects for homes, workplaces and public spaces.
